AIRNEXUS

AirNexus Zone and AirNexus Zone Pro

Every room.

Its own climate.

Zoned control for ducted air conditioning, in two kits. And with AirNexus Zone Pro, the rest of your home too.

AIRNEXUS ZONE

AIRNEXUS ZONE PRO

TWO KITS

Pick your kit.
Both zone every room.

AirNexus Zone Pro does everything AirNexus Zone does, and brings in the rest of the home.

FOR HOMES

AirNexus Zone

Ducted zoning for homes.

- 8 zones, up to 14 with the expansion module
- 7 or 10 inch wall screen, dark or light
- Wireless Room Sensors, one per room, sold separately
- Siri, Google Assistant and Alexa
- Quiet bypass, with minimum and maximum air per zone
- 5-year warranty

FOR HOMES AND COMMERCIAL SITES

AirNexus Zone Pro

Zoning, smart home and automation.

- Everything in AirNexus Zone
- Nexus Connectors and Matter
- Wired or wireless room sensors, sold separately
- Control4, Savant and Basalte drivers
- Hydronic through an expansion, sold separately
- 5 years in a home, 2 years at a commercial site

BOTH KITS

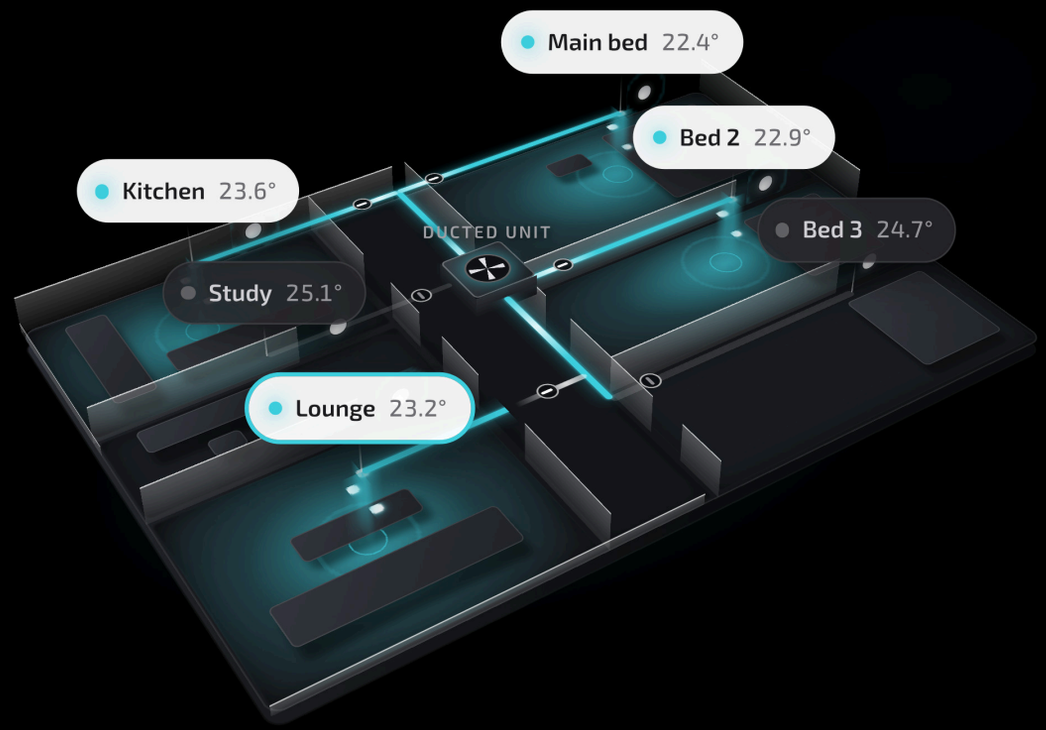

AC control built in
The AC control module clips into the zone module.

Guided setup
On the wall screen, then pair your phone by QR code.

The free AirNexus app
For iPhone and Android, at home or away.

One air conditioner.
Every room, your call.

A ducted system treats the whole house as one big room. Both kits give every room its own zone.

With a sensor in each room, every zone runs on its real temperature. The zone module opens and closes the air to each one.

Up to 14 zones
8 as standard, up to 14 with the expansion module.

Room by room
With a Wireless Room Sensor in each room, every zone runs on its own temperature.

Quiet bypass
Spare air is bypassed quietly when only a few zones are open.

Minimum and maximum air
Set the least and the most air each zone gets.

AC control built in
The AC control module clips into the zone module, so there is no separate gateway to fit.

Works with the major ducted brands
Compatibility confirmed per unit at quote stage.

Everything to zone *one ducted system.*

Both kits come with the same box. Choose the 7 or 10 inch wall screen.

7 OR 10 INCH

Wall screen

A touchscreen in a dark or light theme.

ZONE ZONE PRO

UP TO 8 ZONES

Zone module

Opens and closes the air to each zone, with the AC control module clipped into its base. In AirNexus Zone Pro the network board is built in.

240V TO 24V AC

Transformer

With mains lead and plug.

CAT 6

Cable and sensor

Cat 6 from the zone module to the wall screen, plus the supply air sensor.

ADD TO IT, SOLD SEPARATELY

ONE PER ROOM

Wireless Room Sensor

Slim and wireless, with a frosted glass look. It pairs from the wall screen.

WIRED, AIRNEXUS ZONE PRO

Discreet Sensor

A 20 mm flush-mount wired sensor, run from a Sensor Expansion.

EXTRA SCREENS

Neo

A Wi-Fi wall screen for another room, paired with either kit.

Your home.
At a glance.

Every zone on the wall screen and in the free AirNexus app. The wall screen is a 7 or 10 inch touchscreen, in a dark or light theme.

The 7-inch wall screen in the light theme, and the AirNexus app on iPhone.

Download on the App Store

GET IT ON Google Play

Free for iPhone and Android.

Half-degree steps
Auto, cool, heat, fan and off, with the fan speed set or left on auto.

Your names
Zones named the way your family talks, like Lounge, Kids' rooms or Media room.

Set and forget
Weekday and weekend schedules, eco limits, holiday mode and auto-off.

Just say it
Siri, Google Assistant or Alexa.

Away from home
Left the air on? Switch it off from anywhere.

No internet? No problem
The wall screen keeps running over your home network.

SCREENS SHOW DEMO DATA

The rest of the home.
On the wall and in the app.

NEXUS CONNECTOR

Fifteen modules, each named for the job it does.

CONTROL

Garage doors and gates, blinds, lights, LED strips, scenes, pool, garden and hot water.

ENERGY

Energy and solar monitoring, for single-phase and three-phase homes.

SENSING

Doors and windows, presence, temperature and humidity, and leaks.

Matter

Apple Home, Google Home, Alexa and SmartThings.

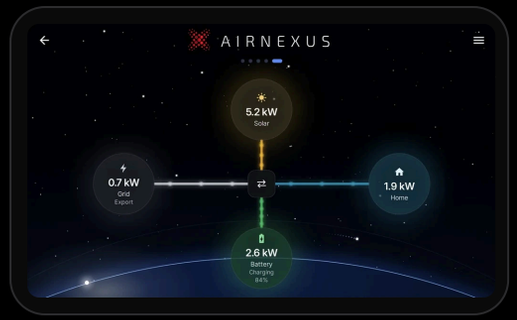

Home automation drivers

Zone names sync automatically.

Control4 · SAVANT · basalte

Wired sensors and hydronic

Wired room sensors through a Sensor Expansion. Hydronic through an expansion, sold separately.

WITH AIRNEXUS ZONE PRO

Your solar and battery, live.

Every zone, the weather, and your solar and battery, together on the wall. With the Energy, Pool and Hot Water modules, spare solar can run the pool pump and hot water.

Live energy needs AirNexus Zone Pro and compatible solar, battery or energy monitoring hardware, sold separately. Figures shown are illustrative.

Nexus Connector modules and sensors sold separately. Mains-wired modules must be installed by a licensed electrician. Matter support depends on the model.
